Project 1748, Southern Cardamom REDD+ Project: Review Completion Notification

Dear Chuop and John,

Verra has completed its review of the above project (the "Project") and taken it off hold in the Verified Carbon Standard (VCS), Climate, Community & Biodiversity Standards (CCBS), and Sustainable Development Verified Impact Standard (SD VISta) programs.

On 19 June 2023, Verra opened a new review of the Project following the *VCS Registration and Issuance Process, v4.3*, the *CCB Program Rules, v3.1*, and the *SD VISta Program Guide, v1.0*, and sent review reports to the respective validation/verification bodies (VVBs) and Wildlife Alliance (WA). The VVBs and WA responded to the reports. WA also submitted a three-month progress report outlining actions taken.

WA must submit a second progress report by 13 March 2025 for review and acceptance by Verra.

Verra reserves all rights to take any additional action that it deems appropriate.

Sincerely,

Jerry Seager
Senior Director, Program Quality
